Editorial Review

This spa doesn't take things too seriously--it's simple, affordable, and the menu's a hoot.

#### In Short

Walking into this airy Chelsea spa feels a bit like entering a cloud, with high ceilings and light colors, and three simple treatment areas flooded with sun. The menu, on the other hand, is packed with color and comedy. Boys battling razor burn can get the Manly Touch to soothe and smooth their faces, and the spa promises a natural glow with the George Hamilton tan. Those hung-over should check themselves in for the Betty Ford treatment, known for releasing toxins and combating bloating.

#### Insider Tips

Hair Removal

This is one of the only spas in the city to offer sugaring, a technique that's similar to waxing (which they also offer), but more

natural, longer-lasting and (some say) less painful.

#### Brands

Stocked on the spa's shelves are products from Astara, Anthony Logistics and more.

#### On the Menu

In addition to facials and hair removal, the spa also offers massage, body treatments, manicures, pedicures and anti-aging treatments.
