

**Done by a Pore Star! Facials are a specialty****New York 12.02.2008**

Since our country has taken to voting on rights, it's time for the gays to have their say!

Let us ban the immoral marriage of flip flops in winter. Or how about denying the right to wear those hideous Yasser Arafat scarves? More offensive still, let us vote to ban the cheap opportunists we keep picking up on late-night street corners! It's hard to look in the mirror sometimes. We may live in a smarmy city, but there's nothing more shameful than a dirty little pore!

Vote them off the island!

We've always gone to Chelsea for a good facial, but this time it's guilt-free and given by a gorgeous latino! March on over to Enrique at Face to Face spa.

You know the place. Face to Face features provocative ads that grace the pages of HX, NEXT, and every patriotic men's magazine – honestly, what's more patriotic than ogling the male form?

Face to Face specializes in facials, waxing, and massage, and has worked on gaylebrities from actor Neil Patrick Harris to porn pup Brent Corrigan. Everyone loves to suck face – expertly – with the sandblasting suction of microdermabrasion!

Vote to dig out your imperfections; to cleanse and exfoliate, and then smoothe it over with an alpha hydroxy acid mask. Leave feeling rejuvenated, refreshed, and beautiful. Self-esteem restored.

That's a mandate!
